

Seven Great Tips for Recycling and Reusing

Here are seven great tips to help you with some ideas for recycling and reusing in your home.

1. Flatten cardboard boxes so that you can fit even more into your bin.
2. Remember that all plastic bottles can be recycled - water bottles, bottles with salad dressing, shampoo bottles - so put all of them in your recycling container.
3. It's not just newspapers that you can recycle at home. You can recycle wrapping paper, envelopes, birthday cards, even paper towel tubes.
4. Most metallic items in the home can be recycled - aluminum foil for sure but also empty soda, fruit, vegetable and other food cans.
5. Stop at your local recycling center and drop off anything that was not picked up by your curbside service. This lets you fit recycling into your daily life and will also remind your family about the importance of recycling.
6. Glass can be recycled endlessly; it does not wear out after being recycled many times, so be sure to always recycle your glass bottles and containers.
7. Buy reusable bags when going to any store!
